WHAT'S THAT?

It is an adhesive label pre-applied on the film reels that, through a special cutting system, allows to open and reclose the pack more than 20 times. Whether your aim is to make easier the opening of the pack, to reclose it and bring it with you, to keep the food fresher or to make a more eye-catching branding, this label is the solution.

ADVANTAGES

- 1. Lower production costs
- 2. Less food waste (about 8%)
- 3. Better product preservation, thanks to the reclosure, which is guaranteed for more than 20 times
- 4. Easy to open and use
- 5. Avoid additional packaging
- 6. Visual and commercial appeal
- 7. Fully customizable in terms of graphics, form, size and opening
- 8. Doesn't need different packaging machines

Can be used in different sectors

- |  |   |
|--|---|
|  CONFECTIONERY      |  DRIED FRUIT     |
|  FRUIT & VEGETABLES |  CHEESE          |
